This programme is the first of its kind in the world with a conglomeration of important issues on humanity, power (inner & outer) and spirituality. Several distinguished luminaries whose hearts echo the humanity from different communities and religions across the world, shared their views that every religion propagates service to humanity, and that moral and social principles have its own paths leading to one cosmic reality. Various religions are like flowers of different colors to be tied with a cord of love into a beautiful bouquet to be offered at the altar of truth. Diversity with unity is inherent in nature.

This is a spectacular confluence where all streams of thought converge irrespective of religious persuasion, inclusive of all disciplines whether belonging to science or humanities, sacred or secular, social or cultural, political or economic, where distinguished luminaries share their thoughts and life's experiences, highlighting unity in diversity and diversity in unity. It remains the task of this conference to bring home the values of enlightenment in practice as life's journey within one's own self, and through love and service to the society at large.

Swami Vivekananda observed that **the world needs spirituality to establish fearlessness** in the new generation, self-discipline, hard work and selfless service to the nation. He asserted, "Manifest divinity within you", and added, "Mark, if you give up spirituality, the result will be that in three generations you will be extinct."

The former President of India, the late Dr. A.P.J. Abdul Kalam, who inaugurated the 4th World Confluence of Humanity, Power and Spirituality rightly quoted at the confluence, "Spirituality can eradicate corruption not legislation."

"I am happy that the World Confluence of Humanity, Power and Spirituality is discussing peace and harmony from the spiritual perspective, scientific perspective and art and music perspective. I am sure the confluence will provide direction to humanity for developing a roadmap, for promoting prosperity, peace and harmony at a time when the whole world is experiencing turbulence. "We need to propagate peace; and to attain it we need to be transformed into spiritual beings. As everybody is not practicing spirituality; there is a need for promoting spirituality. To built up spirituality in us, we need to be minded every year at the confluence. To tune up our soul, we need to receive new teachings about spirituality. For me it is an accomplishment, as it brings happiness to my soul."
